

OBJECTIVE

In a few simple words, I am living my dream. Studying, living and working in the U.S. has always been my dream. After graduating with my masters degree in graphic design, it is time to implement my skills and knowledge and take my dream to the next level.

I am extremely passionate, driven, ambitious and not afraid of hard work. Growing up in Israel and evolving in the U.S. have helped me implement the best both cultures have to offer, the Israeli openness and high work ethics and the American kindness and tenaciousness.
